

Using Interlibrary Loan at Chambers Library

First set up your free account: Go to Library Services and select Interlibrary Loan. Click the link for First Time Users Information and Registration.

Read the first page, particularly the Copyright Information. If you agree to all terms and conditions, click the "First Time Users Click Here" button at the bottom.

Fill out the required information, including the user name and password you want for this account.

Click "Submit Information."

Now, when you click an Interlibrary Loan link associated with any book, DVD, CD, or article that Chambers Library does not own and log in to your account, the request form will be automatically populated with the details of the material. You have only to scroll to the bottom and click "Submit" to send your request.

Interlibrary Loan staff will search for a library that owns the material and is willing to lend it. You will be notified by e-mail when the item is available.
